Restaurants Fined For Milk Below Test—14 Ounce Loaf Not Enough Decayed Apples and Signs Lacking Cause Difficulties

Deputy State Food Inspector E. L. Melton who has been inspecting local institutions caused the arrest of several business men Monday for infractions of the state health and food regulations. All of the men charged pled guilty and each paid a fine of \$25 in Judge G. L. King's court.

Several of the men claimed ignorance of the law and others averred they did not know they were violating the regulations, while one was technical in that the only offense was the lack of a sign telling of the use of cereals used in the manufacture of sausage.

The following and the charge made against them appeared in court. Jim Toy, Lee Chow and P. H. Shores, each charged with selling milk that was below the required test, the technical charge being that of selling adulterated milk; E. H. Barcus for selling bread below weight required by law; A. Robinson for not displaying sign saying cereal was used in sausage; T. H. Moore for having decayed fruit in basement of building occupied by pool room.

The fines collected were sent to the County Treasurer and are credited to the public school fund.

### ONTARIO IN LIMELIGHT AT UNION'S ANNUAL STOCK SHOW

High School Band in Nifty Uniforms Makes Decided Hit—People of Baker and LaGrande Impressed With Organization

The Ontario High School Band made a decided hit at Union, Oregon Stock Show. After the first number played on the street before the parade to the grounds the people began complimenting the boys. Mr. Wright, chairman of the Union Show said last Friday when he paid the band that he never had been more surprised than he had been with the Ontario band. He stated that he wanted the band to return next year at regular musicians prices. That is a great compliment because Ontario was in competition with the Union band and also with the band of LaGrande.

Ontario was much in evidence at the show. Besides the 22 piece band there was the stock judging team. All the Ontario boys dressed in khaki suit, leather puttees, and overseas caps. It wasn't long after the first day had started that most of the people knew that Ontario was on the map and when the stock judging team carried off the honors people began to ask about Ontario. Never has the school system been advertised as it was last week.

The people of Union treated the band and stock team royally. Soon after the week started the restaurants almost doubled the price of meals but thru the action of Mr. Roy Conklin and Mr. Ralph Morgan the prices were reduced to the Ontario boys.

Ontario should be proud of having an organization such as the High School band to represent the city and the schools in the way the boys did last week at Union.

### Gossip of the League

With the best pitcher in the league Emmett has won only two games.

Two men were injured in the game here last Sunday—Jack High catching for Ontario had a finger hurt, while Getter, Nampa's third baseman was spiked by Jack Hamann when he attempted to block Jack off third on one of his long clouts.

The fielding of Blue, Nampa's first baseman was of a stellar order, though he had little on the pastime of Chet Lackey on the same bag for Ontario.

Mitch Moore and Jack Sullivan were out of the game on account of illness and injuries. Jack has gone to the hills for a month and will be out of the line up. Mitch is getting better and will be back in the game.

Manager Clemo is endeavoring to get Emmett to come here for next Sunday but has not succeeded, as yet.

The Idaho-Oregon league has but two more games to play and some of the players are already seeking a chance on the local line up.

## CO-OPERATION IS THE WORD MOST OFTEN USED.

When men meet to discuss the solution of business problems of the day.

THIS is described as the age of co-operation. We have associations for the purpose of securing co-operation between producers, between buyers, between sellers. Everywhere, on every hand co-operation is preached for particular purposes.

### HOW MANY REALLY PRACTICE WHAT THEY PREACH?

Do you, Mr. Business Man, whose greater success will be achieved by the upbuilding of Ontario and vicinity co-operate with those who are endeavoring to the best of their ability to further the cause? Do you help them to help you by purchasing from their lines rather than send to some foreign firm the money that you made here?

### Co-operation is Mutually Advantageous—But it Takes At Least Two to Co-operate

Ontario's problems can best be solved by Ontario men, and will be solved on the basis of mutual co-operation, and support. The big problem before Ontario men today is the solution of the City Irrigation Problem, and the second is the success of the County Fair. As Ontario men tackle these problems they will show their ability to co-operate.
